Additional requirements for Advertisement

Drawings:

The drawing of the proposed advertisement should show its dimensions and position on the land or building in question.

For a sign, the drawing should indicate the materials to be used, fixings, colours, height above the ground and, where it would project from a building, the extent of the projection.

A site location plan should also be provided which identifies the proposed position of the advertisement and location of the site by reference to at least two named roads. It should be drawn to an identified scale and show the direction of North. Ordnance Survey maps are not required. Photographs and photomontages may be used.

Description of signs, size and illumination

The type of each sign for which application is being made, e.g. fascia, projecting box, pole-mounted free-standing, should be shown, together with the dimensions of each sign. If any of the signs are to be illuminated please describe the type of illumination, e.g. internal, external, floodlight, etc, and whether the illumination will be static, flashing, or have moving parts.

Owners consent:

It is a condition of every consent granted by or under the Regulations that, before displaying any advertisement, the permission of the owner of the land or other person entitled to grant permission must be obtained. To display any advertisement without this permission is an offence, open to immediate prosecution.

Where the site is within the boundaries of a highway, evidence that the application is acceptable to the highways authority must be provided.
